### **1.0 Purpose:**

Purpose of this Energy Management Policy is to demonstrate the commitment of Intellect Design Arena Limited (“Intellect”) towards Energy Conservation and compliance towards applicable legal requirements.

### **2.0 Applicability:**

This is applicable to all Business operations pertaining to Scope and Boundaries defined in the Environment, Health and Safety (EHS) Manual

### **3.0 Details:**

Intellect is committed to energy conservation and recognizes the global action needed for sustainable energy consumption and resource conservation to reduce the overall environmental footprint to mitigate the adverse impact of climate change.

This policy establishes guidelines and practices for the efficient use of energy resources to improve our sustainability performance.

Intellect shall endeavor to:

- Comply with all applicable energy management related regulations and standards.
- Establish goals, objectives, and processes to conserve energy by implementing energy conservation projects and adoption of energy efficient technologies.
- Promote the utilization of renewable, green and sustainable energy sources.
- Promote green procurement practices and encourage innovations in adopting sustainable and energy efficient technologies.
- Launch awareness raising initiatives about the importance of energy management and enhancing energy efficiency.
- Implement regular monitoring and review of energy consumption and set targets for reduction.
- Assist suppliers and business partners in their energy management journey.

The content and robustness of implementation of this policy will be reviewed periodically and revised accordingly.

### **4.0 Guidelines:**

- Policy shall be communicated to all interested parties
- Should be available to general public
- Should be displayed in the premises
- People working at all levels and people working on behalf of the company should be aware of this policy.
